

## Wincomm's Outdoor Kiosk Solution Goes for "Green" Application

Wincomm WTP-8865-150 is used perfectly as a HMI of recycle system outside of supermarket.

Hsinchu, Taiwan, July 5, 2010 –Are you confused with how to arrange collection of your wastes for recycling in supermarket? You may be interested in this application story.

One of Wincomm customers used Wincomm's outdoor kiosk solution – WTP-8865-150 as a HMI installed at the entrance of supermarkets with its waste recycling software to smartly categorize the wastes according to their composition. This recycle machine can enhance end user and supermarket to meet the mandatory recycling laws or container deposit legislation effectively & efficiently.

The recycle machine is a custom-made device with built-in speaker · weight scale · IC card reader and the Wincomm WTP-8865-150 outdoor kiosk as *config.1*. When the customers of the supermarket touch the machine to select the codes of recyclable goods, it shows the recycling

category on screen and the speaker will tell the user, too. Besides, the users are awarded bonuses, credits, or discounts from the supermarket by member IC card. That motivates users to collect more recyclable waste. (see picture)

**Why Wincomm WTP-8865-150?** Wincomm has been widely offering its outdoor kiosk solution for many applications. The unique outdoor kiosk design of WTP-8865-150 can be operated in the **wide temperature range of -25°~55°C**.
